09/3/17 : Added 2016-2017 Grants and Sponsorship info from 2013 to 2016.

About Us

This website is a helpful way for the public and government officials to search through different grants and sponsorships. It includes previous historical data that you can compare and see different visualization data to make analysis for government officials. It also allows the public users to narrow down searches to find which grant applies to them.
